DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Germany on 4/2/2003 and 3/4/2004. It is noted, however, that applicant has not filed a certified copy of the 10314984.8 and 102004010498.0 application as required by 35 U.S.C. 119(b).

Claim Objections

Claim 2 is objected to because of the following informalities: Claim 2, Line 1, -- outer layer-- should be inserted after "coating". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Massler et al (DE 10018143).

Massler discloses a coating for a pump device having at least one of a piston and sealing elements to seal the pump piston, the at least one of the pump piston and sealing elements having a coating containing of at least one of halogen-, silicon-, carbon-containing, and metal-organic monomers, wherein the coating includes an inner adhesive layer including one of chromium and silicon, at least one intermediate layer including one of chromium, tungsten, silicon, and carbon, and one of an outer, metal-free functional layer of diamond-like carbon and an outer, metal-containing functional layer including tungsten carbide (see Abstract).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
